Shared Thinking

- Public-private sector partnership
- Rapidly evolving online and offline recruitment service values
- Making sure that best practice leads to best results
- Assessing the speed and direction of change

Objective: to deliver “best of breed” recruitment practices throughout the government service -

- By acknowledging the strengths and weaknesses of public and private sector partners
- By understanding the IT and HR context in which recruitment takes place, and acknowledging the need for solutions
- By developing links and relationships which ensure that government is able to change practises at appropriate moments

- with the result that government gets the blend of recruitment services that it needs to ensure that its critical staffing demands are satisfied.

And change is taking place quickly -:

- Zoom Info
- Dotjobs domain
- Oodle.com; Indeed.com

- which makes the next five years critical.....
