Community Licence

1. This is general export authorisation under the terms of Article 6(2) of Council Regulation (EC) No. 1334/2000. This authorisation, in accordance with Article 6(2) of that Regulation, is valid in all Member States of the European Community and is a Community Licence for the purposes of the Order.
2. Subject to the following provisions of this Licence, any items specified in Part A of Schedule 1 hereto, other than any specified in Part B of that Schedule, may be subsequently exported from the United Kingdom, or from any other Member State by any person established in the United Kingdom, to any destination except a destination in a country specified in Schedule 2 provided the item is being exported for:

- (iv) delivery to the country from which they were imported into the European Community.

Exclusions

3. This Licence does not authorise the export of items:
 - (1) if the exporter has been informed by a competent authority of the Member State where he is established that they are or may be intended, in their entirety or in part
 - (a) for use in connection with the development, production, handling, operation, maintenance, storage, detection, identification or dissemination of chemical, biological or nuclear weapons, or other nuclear explosive devices or the development, production, maintenance or storage of missiles capable of delivering such weapons,

- (b) for a military end use and the purchasing country or country of destination is subject to an arms embargo decided by a Common Position or Joint Action adopted by the Council of the European Union or a decision of the OSCE or imposed by a binding resolution of the Security Council of the United Nations, or

Prohibitions not affected by this Licence

5. Nothing in this Licence affect any prohibition or restriction on the export of any items other than under the Regulation or the Order, and this licence does not confer any licence or permission

under, or for the purposes of, any enactment other than the Regulation and the Order.

Interpretation

6. For the purpose of this Licence:
 - (a) "Customs Free Zone" means a part of the territory of a country where any goods introduced are generally regarded, insofar as import duties and taxes are concerned, as being outside the customs territory of that country, and are not subject to the customs controls that would otherwise apply;
 - (b) "entry" includes part of an entry;
 - (c) "repair" means making good any remediable defects, and work of maintenance or restoration. This may involve coincidental improvement upon the original goods, e.g. resulting from the use of modern replacement components or from use of a later standard for reliability or safety reasons. It may also involve improvements of a purely cosmetic nature e.g. paint work.
 - (d) unless the context otherwise requires, any other expression used in this Licence has the same meaning as in the Regulation or the Order as appropriate.

Entry into Force

7. This Licence comes into force on 23rd April 2007.

8. The Open General Export Licence (Export For Repair/Replacement under Warranty: Dual-Use Goods) dated 1 May 2004 is revoked.
